Student Responsible Use Guidelines for Technology

Introduction

Clear Creek Independent School District makes a variety of communications and information technologies available to students through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the district by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, harming the district, its students and its employees. These Responsible Use Guidelines are intended to minimize the likelihood of such harm by educating district students and setting standards which will serve to protect the district. The district firmly believes that the benefits of digital resources, information and interaction available on the computer/network/Internet far outweigh any disadvantages.

Acceptable Use

Computer/Network/Internet access will be used to enhance learning consistent with the district's educational goals. The district requires legal, ethical and appropriate computer/network/Internet use as per these Responsible Use Guidelines and the Student/Parent Handbook for Student 1:1 Devices.

Expectations for Use of School District Technological Resources

Responsible use of school district technological resources is use that is ethical, respectful, academically honest and supportive of student learning. Each user has the responsibility to respect others in the school community and on the Internet. Users are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable Board policies, the Student Code of Conduct and other regulations and school rules, apply to use of the Internet and other school technological resources.

Secondary Honor Code

“Learning is Essential for Liberty.” – Thomas Jefferson

This Honor Code was developed by Clear Creek ISD high school students with the expressed intent to state that our Academic Integrity is being challenged in the face of high stakes testing and reports of periodic cheating. Therefore, it has become a moral imperative that our work ethic today will impact our future.

We believe the students of Clear Creek ISD subscribe to becoming self-directed learners and doing the best we can. Furthermore, we believe that academic honesty is respecting yourself and others, as well as claiming your own work.

We believe students are responsible for maintaining and supporting the academic integrity of the school by completing all assigned work, activities, and tests in an honorable process without engaging in cheating, fraud, plagiarism, or prohibitive electronic assistance. Through this effort, we will become trusted members of society and prepared for the workforce of the 21st Century.

We believe teachers are responsible for monitoring students during all assessments and holding students accountable for cheating. We believe that each class and teacher is only as strong as each individual’s personal commitment to integrity, honor, and responsibility. Teachers are also encouraged to have faith in their student’s success and for making sure the class is highly engaging.

We believe the measure of success of our school community is based on the success of our students so the consequences below shall serve as a deterrent to a violation of this Honor Code and Our Academic Integrity Policy. These consequences will be listed in our Secondary Student Code of Conduct in addition to the in-school suspension consequence and [EIC\(LOCAL\)](#) as applicable. As a result of clear and compelling evidence of student’s cheating on a major grade:

1. A student shall receive a “0” for the school work, and is subject to a “U” in conduct and disciplinary action (including ineligibility in the next contest/game).
2. There will be no retakes for students who cheat.
3. Students who are enrolled in advanced academic courses (Pre-AP/AP) will be immediately removed from the advanced academic course and placed in the next lower level class.
4. A student is not eligible for any semester exam exemption.
5. A documented finding of academic dishonesty shall be reported on the student’s college application.
6. Students in violation of the Honor Code shall be immediately removed from the National Honor Society, National Junior Honor Society and any other Honor Society that is an official school organization.
